# S200 Portable Solar Energizer

S200 G36010

New S200

Animals  
Controlled

Stored  
Joules

8 HECTARES  
20 ACRES  
Area  
Powered

Rechargeable  
battery  
included

3 year  
warranty

Convenient fully integrated portable power. With no mains power required, these all-in-one, plug and play, portable Energizers give reliable stock control for up to 8ha or 20km of fence line.

**Turn on and forget** - Smart electronics enable continued animal control independent of weather conditions.

**Multiple power options** - the customer has full control, with multiple operation modes to suit wildlife animal exclusion and livestock animal inclusion.

**Battery Status Indicator** - LED light shows battery health in an instant.

**Water resistant case, with built in lightning protection** - designed to be left outside, rain, hail or shine. Keeps stock contained in all weather conditions.

NEW  
FEATURE

**Dual solar panel design** - improved solar reliability with split solar panel design. Separating the solar panel in two, means that if one is covered by vegetation, the second panel will continue to charge battery.

**Portable and quick to install** - easily set up in any location and moved about as required allowing it to be used for strip grazing and better pasture management.

**Fully integrated, ready to use** - includes fence/earth leadset, rechargeable 12v battery and solar panel.

**360° mounting on steel posts for correct orientation towards the sun** - allows the Energizer to be mounted on a steel post that is already part of the fence line, regardless of which way the post is facing.

Perfect for strip grazing, this robust and highly portable unit makes a great alternative to battery-powered systems.

**NEW FEATURE**

**Battery Status Indicator** - shows battery health in an instant.

**NEW FEATURE**

**Multiple power options** - Two operating modes ensure optimum battery usage, even in periods of low sunlight:  
½ - Runs at half power with a constant pulse rate day and night  
1 - Runs at full power, but pulses slower at night when animals are less active

**Quick to install** - can be setup easily in any location and moved about as required allowing it to be used for strip grazing and better pasture management.

**Water resistant case with built-in lightning protection** - designed to be left outside, in all weather conditions giving the farmer confidence that it will keep stock contained.

**Turn on and forget** - Energizer will continue to work for up to 3 weeks without sun.

**Fully integrated, ready to use** - includes fence/earth leadset, rechargeable 6v battery, solar panel and mains recharge power kit.

**Mounting Bracket** - for Ring Top Posts & Pigtails.

**NEW FEATURE**

**Mains recharge capability** - Allows battery to be charged by mains power if insufficient sunshine hours are available or for periodic recharge during storage.

**360° mounting on Steel posts for correct orientation toward the sun** - allows the Energizer to be mounted on a steel post that is already part of the fence line, regardless of which way the post is facing.

Resistant

2 year  
warranty

## The new standard for portable electric fencing.

**Reduced risk of shorting** - Wear resistant, patented glass filled nylon ring top head eliminates the risk of shorting

**Tough, unbendable foot plate** - Foot plate can withstand 360kg of pressure

**Strong, secure insulators** - Glass filled nylon insulators "snap on" to post form a reliable connection and are easily replaced

**Choose your wire heights and spacing** - Pre-formed notches allow multiple customised wire heights

**Reliable ground holding** - 7mm steel foot spike prevents the post from rotating once inserted into the ground

**Ideal for hard, stony ground and heavy cropping** - Heavy duty 7mm diameter steel shaft

We've beefed up our Ring Top Post to cover all your portable fencing needs.

- Heavy duty 7mm diameter steel
- Tough unbendable footplate
- Dual foot spikes for superior ground holding
- Strong & secure insulators

Now available  
in Heavy Duty  
& Multi Wire

# Geared Reel G61150

## Pre-wound options:

Striped Turbo Tape 200m G61158  
 Striped Turbo Braid 400m G61151  
 Poly Wire 500m G61155  
 Poly Tape (12.5) 200m G61153

## PVC Handle Pre-wound options:

Poly Wire 500m G72155  
 Poly Tape 200m G72153  
**LARGE GEARED REEL**  
 G63150

Built to last, the Geared Reel is hardwearing and easy to use, with practical features such as a transport lock and heavy duty gearbox for simple fence set up.

**Fully galvanised frame and white high impact hub** for durability in tough New Zealand farming conditions.

**Large comfortable hand grip with knuckle guard** for safer use.

**Long crank arm** for better leverage.

**Impact resistant reel guide** for tangle free operation.

Shatter proof reel lock.

# Insulated and Dual Purpose Handles

UV resistant

1 year warranty

G73732  
 G73832 (Dual Purpose)

Secure insulated connection hook ensures handles will not bounce off the fence wire.

**Streamlined design** - Easy retrieval through pasture when winding in.

**Secure insulated hook** - "Ring Top" design connection hook.

**Dual Purpose Handle** - with extra secure connection points (shown below right), enables farmers to live the fence from either the reel or handle end.

**Tough insulated plastic** - Made with durable UV resistant material.

**Larger moulded hand grip** - Finger grips indicate where to place hands to avoid getting a shock.

**Attaches to polywire/polytape/braid via a simple loop** - By tying a loop in the wire, tape or braid it can be attached easily to the eye in the handle.
