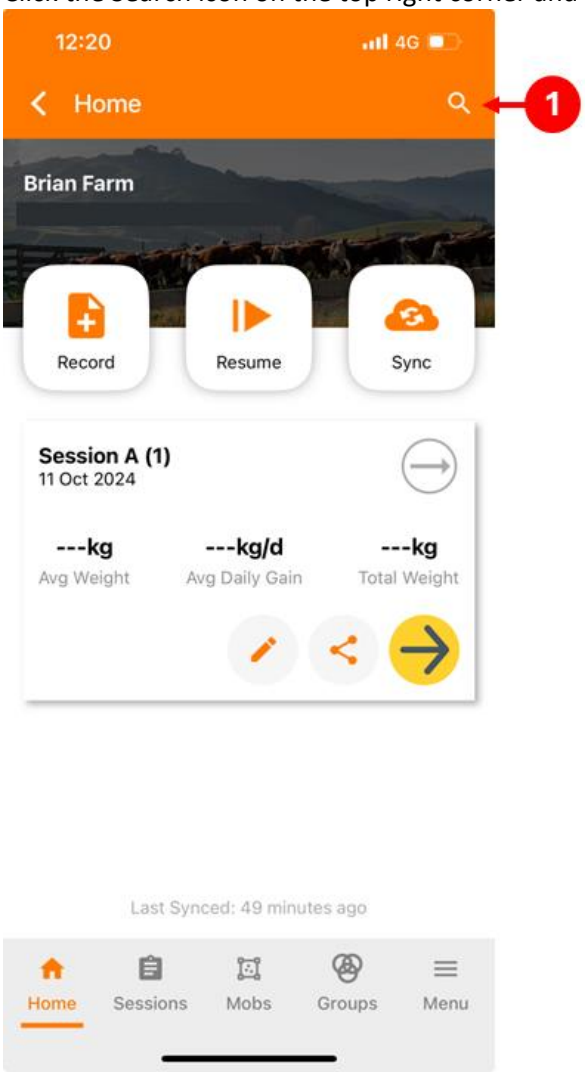
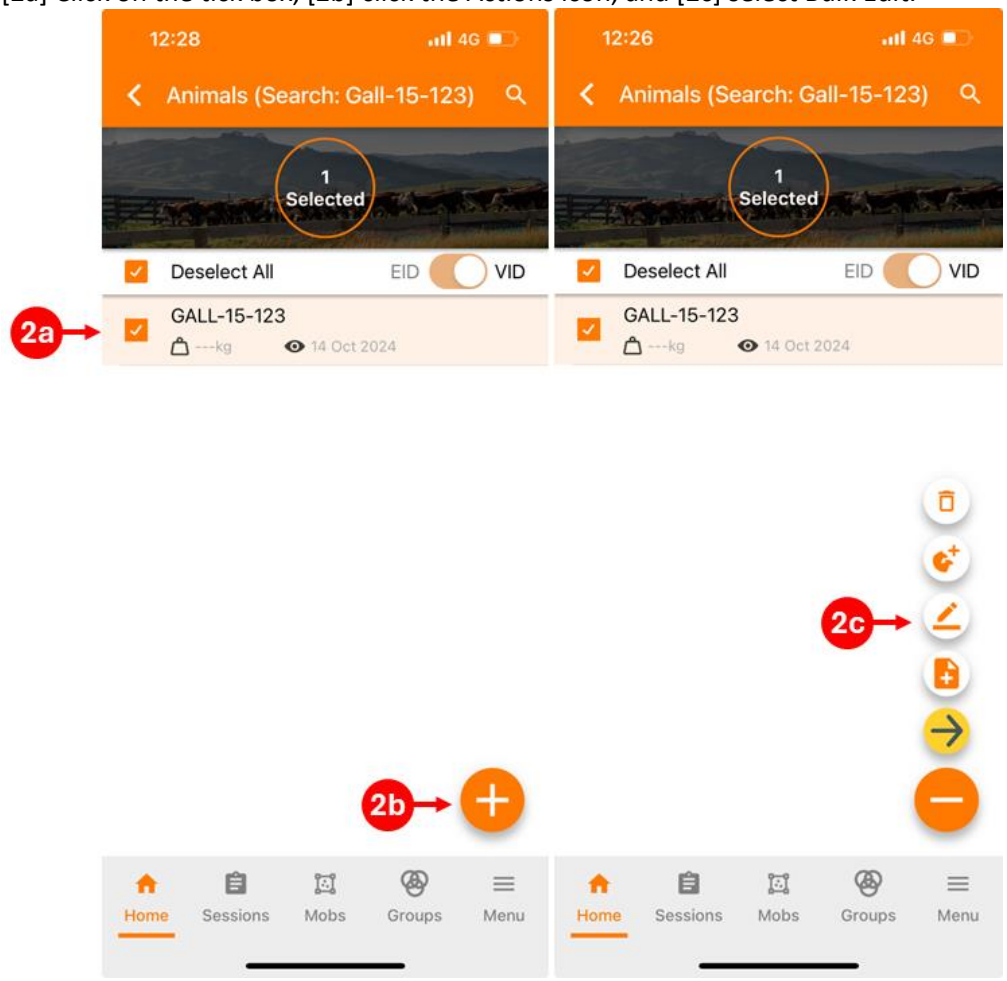
Mobile Application (Plus subscribers)

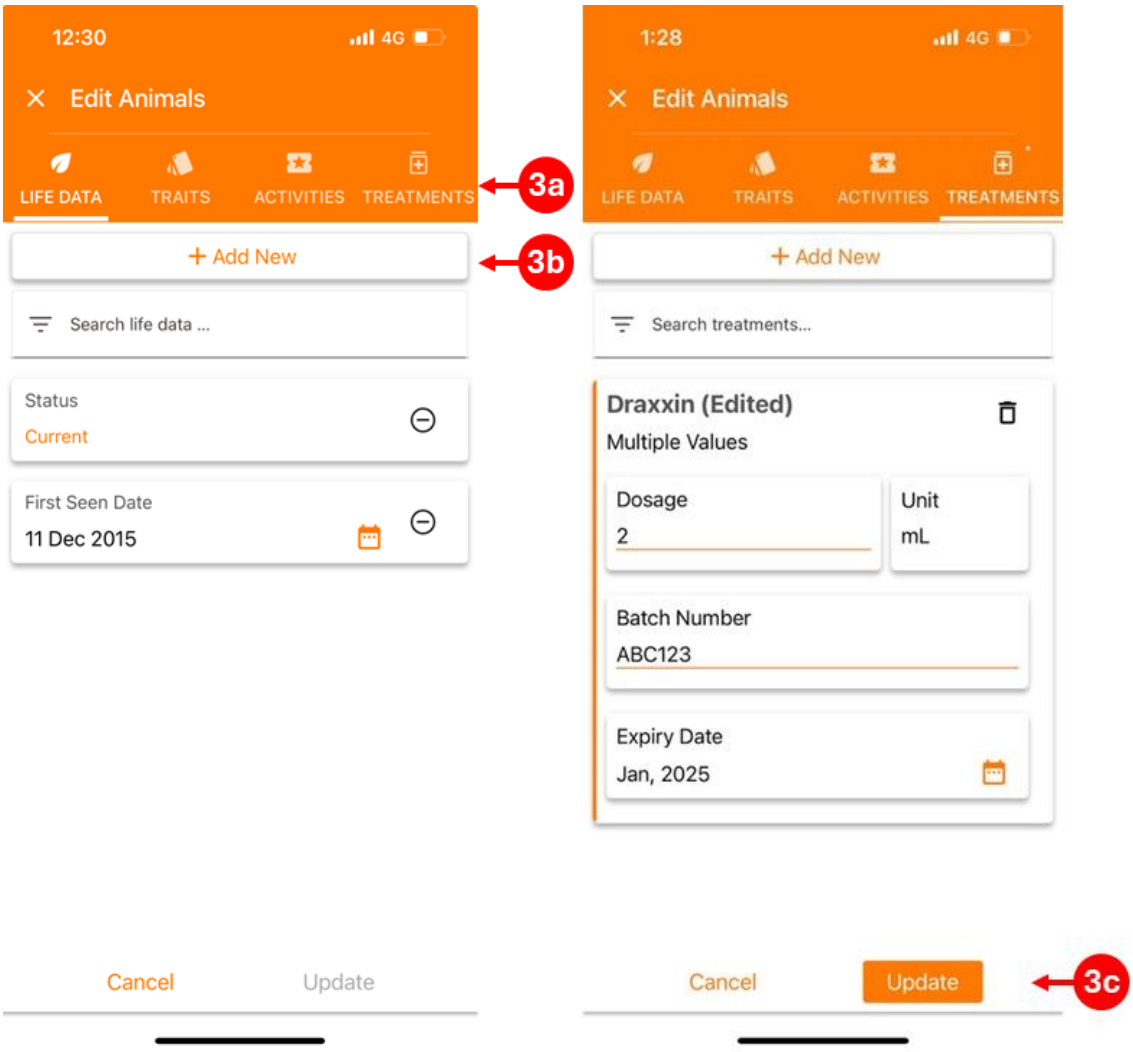
Step 1:
Click the Search icon on the top right corner and type the animal's EID or VID, e.g. GALL-15-123.



Step 2:
[2a] Click on the tick box, [2b] click the Actions icon, and [2c] select Bulk Edit.



Step 3:
You can record information such as Life Data, Traits, Activties, Treatments or Notes. [3a] In this example, we are recording a Treatment against this animal, so select the Treatments tab and [3b] click Add New. You can select Treatments that already exist in your account or you can Create New Treatment if it's not on the list. Key in the date of when the treatment was administered, then click OK. [3c] Complete all the treatment details, then click Update. The panel will then automatically close and you will go back to the All Animals view.



Step 4:
You can review what you have just recorded by [4a] clicking the Search icon on the top right corner and [4b] selecting the last-searched animal. [4c] Next, select the animal again and you will be taken to its Individual Animal Page. [4d] Select Treatments as per our example, and the dropdown will expand to show what you have just recorded. You can further expand these dropdown boxes to display additional details.
