Animal Control in Hand

New

Stock Prod Range

Robustness, Flexibility and Choice

Stock Prod Professional (G05652/G05651)

Super tough shaft and market leading design, the Professional models are flexible and robust to absorb sudden animal movement - reducing stress to the user and the animal.

Rechargeable (SG250)

Effective, durable and rechargeable option for keeping livestock moving.

Standard (SG150)

Strong, safe instant power for use with disposable batteries.

* Length includes handle

STOCK PROD

Professional

Available in two models, Ramp Up and Full Power

Ramp Up Model (G05652)

- Unique patented ramp up power - the animal decides level of discomfort before moving away
- Decreases animal stress by minimising shock delivered - especially important for animal handling prior to slaughter.

Full Power Model (G05651)

- Standard full power functionality

SUPERIOR BATTERY LIFE

- Class leading run time on one set of batteries
- Highly efficient circuitry and 4 x large capacity D cell batteries (included)
- Battery life averages at least 2 months in typical professional usage applications.

SUPER STRONG SHAFT

- Aluminium shaft with galvanised steel spring provides unique strength and flexibility
- Shaft is robust to absorb sudden animal movement, reducing stress to the user and product
- Extra large attachment nut to overcome breakages
- 89cm shaft included with both models; 59, 89 and 119cm shafts also sold separately (G05653, G05654, G05655).*

FULLY SEALED ELECTRONICS

- Fully sealed motor assembly providing the ultimate protection against moisture
- Disassembles very easily and spare parts are readily available.

* Lengths include handle

STOCK PROD Rechargeable

PREV 150

STOCK PROD Standard

PREV 250

Car Charger (SG003)

Built in rechargeable battery (includes charger)

Safety wrist strap with button locking clip

Balanced and comfortable hand grip

Safety wrist strap

Disposable batteries included

SHAFTS FOR RECHARGEABLE AND STANDARD MODELS

- Flexible to reduce risk of damage
- Large attachment nut to overcome breakages
- Brass contacts points for positive results
- 55, 82, 107cm options available.*

SG055

SG082

SG107
