

Ring Top Post

The new proven standard
in portable posts

NEW

Available in
two heights

Wear Proof

Tangle Proof

Stomp Proof

“Once I used the new Ring Top Post I didn’t want to go back to the old style”

From carrying an armful of posts, to eliminating the risk of shorting the new Ring Top Post has been designed to make portable fencing easier.

The Ring Top Post combines more strength with less frustration:

- a head that will not wear through
- a super strong foot plate that will not bend under pressure
- a sleek design that significantly reduces tangling

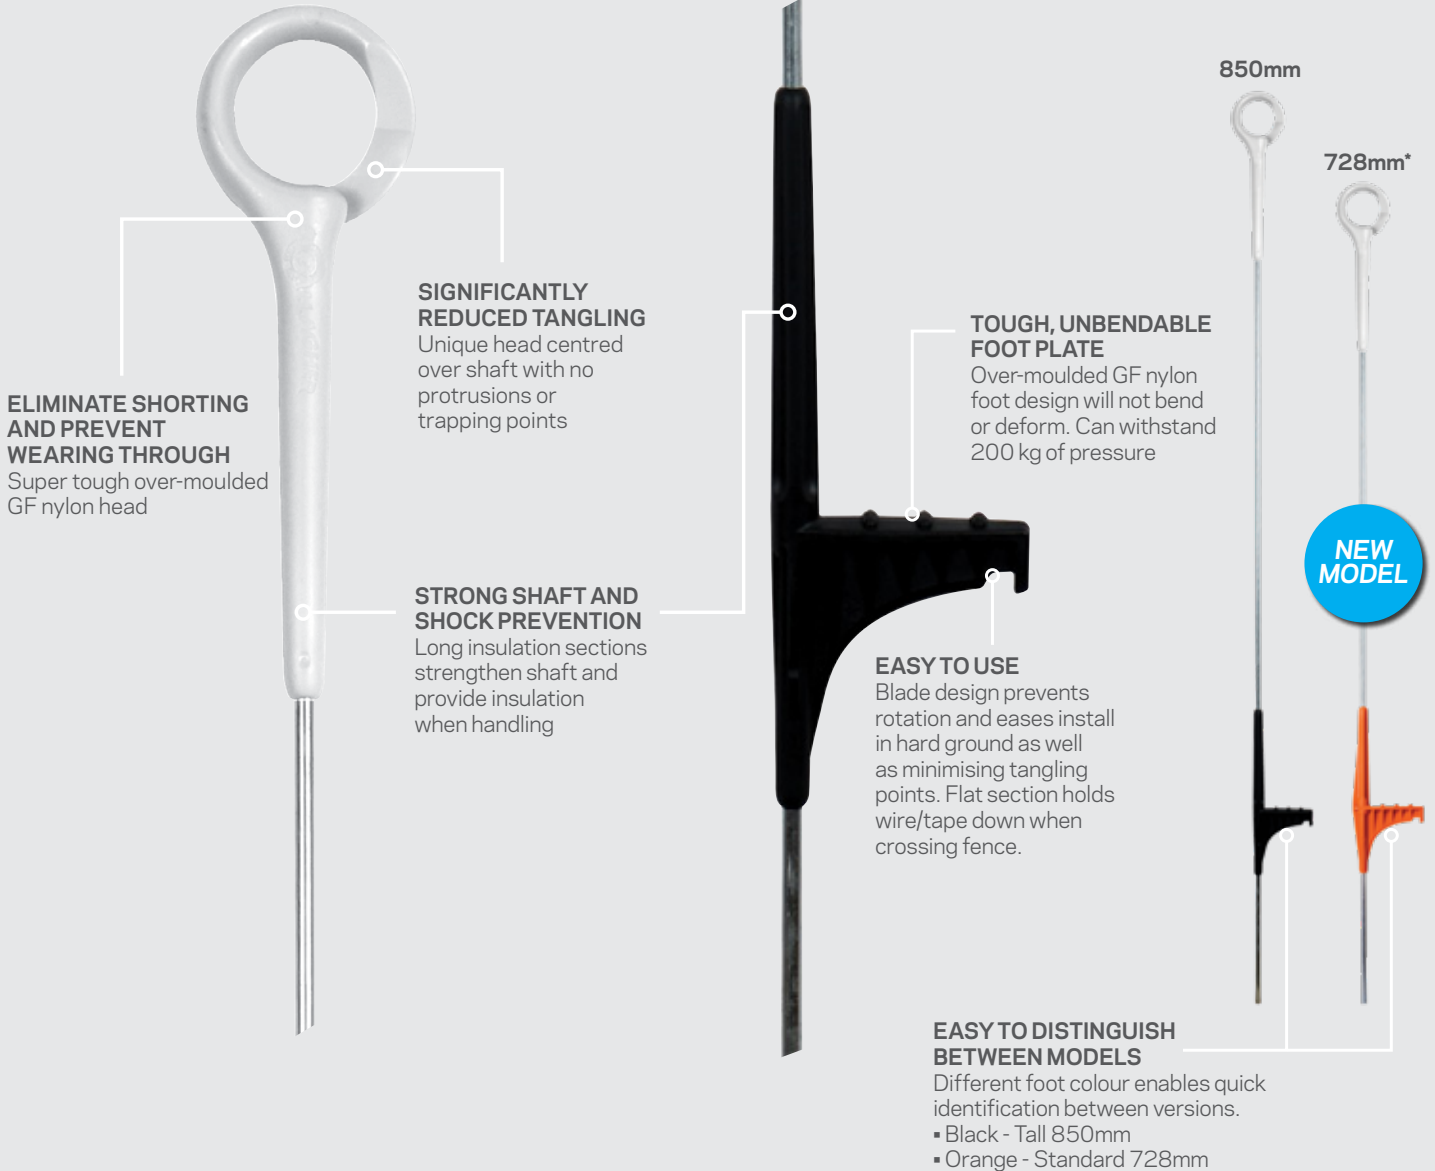

Ring Top Post

(Patent Pending,
Registered Design.)

G72313 - Tall version (850mm)

G72303 - Standard height version (728mm)

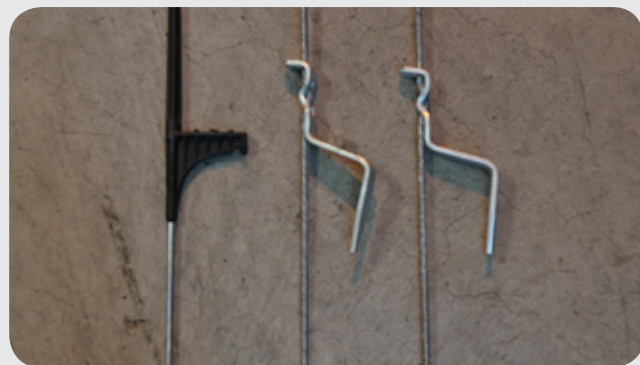

* White version for 728mm length coming soon.

Proven in testing and on farm

35% faster to separate from a bundle

Test results after dropping a weight onto foot
multiple times

Comparative wear test results after
200m of braid wound through heads
